

A HARMONIOUS BALANCE BETWEEN “KNOW HOW” AND “HOW TO”

Ask yourself: Where can I find a balance between proven wax and shell system technologies with unparalleled technical expertise all within one company?

REMET has long been known for high quality Precision Investment Casting products. Our high performance waxes and shell system technologies can provide you with custom tailored engineered solutions to address your specific needs.

Precision Investment Casting foundries worldwide want to improve productivity, tighten dimensional tolerances and produce higher quality castings – all while achieving greater economic competitiveness. Whether your application requires the need to make high quality titanium, aluminum, stainless steel, carbon steel or vacuum alloy castings, REMET has *THE* engineered wax and shell system to meet your specific need. Everything starts here!
